EDUCATION

Great Lakes Institute of Management

PG Diploma in Data Science and Engineering

Gurgaon, India

Jan 2025 – Sep 2025

Gujarat Technological University

B.Tech in Computer Science and Engineering

Ahmedabad, India

Jul 2021 – May 2025

EXPERIENCE

AI Engineer

Ngenux Solutions

Nov 2025 – Present

Hyderabad, India

- Played a pivotal role in building and deploying a multilingual AI voice agent for a leading hospital client, supporting Hindi, Telugu, and English; handled around 10k+ monthly calls with ~75% automated interactions across 5+ departments
- Built a RAG + MCP system automating 1k+ appointments and patient queries, serving 5K+ patients and reducing human workload by ~40% with 99.5%+ uptime
- Evaluated Google STT/TTS, Amazon Nova 2 Sonic, and Sarvam AI; reduced voice latency from 3.5s to 1.25s (~64%) through model benchmarking and optimization
- Led Exotel–LiveKit SIP integration, migrated from Twilio, and deployed self-hosted LiveKit on AWS EC2 for scalable, low-latency voice communication

PROJECTS

Engineering Drawing Lens | *OpenCV, Datalab, OCR, RAG, FastAPI, S3*

June 2026–Present

- Built a multimodal pipeline using Datalab + OpenCV to extract drawing views and entities; achieved ~92% view-detection accuracy and ~88% entity-extraction F1
- Solved overlapping views, noisy structures, and varying layouts using bounding-box refinement, spatial analysis, and post-processing, reducing manual analysis effort by ~50%
- Converted entities to structured JSON with cross-view reasoning and integrated RAG + LLM agents; deployed FastAPI/LangChain on Docker + AWS ECS with ~15s processing

Adaptive Learning Coach | *Google ADK, A2A, Firestore, Cloud Run*

Feb 2026 – April 2026

- Built a 5-agent AI tutoring pipeline (Teach–Evaluate–Diagnose–Plan–Repair) using Google ADK, Gemini 2.5 Flash, Vertex AI, Firestore, Cloud Run, and A2A messaging
- Developed a Cognitive Debugging Engine with a per-user knowledge graph to classify learning errors, track mastery, and generate targeted repairs
- Reduced model latency from 30–60s to 5–15s (~75%) through async Firestore writes via Cloud Pub/Sub and inference tuning

CERTIFICATIONS & ACHIEVEMENTS

Microsoft Certified: Azure AI Apps and Agents Developer Associate (AI-103)

IBM Generative AI Engineering Professional Certificate – Coursera

Kaggle Open Source Contributor & Bronze Dataset Holder

PromptWars Pune – Secured position among Top 10

Competitive Programming – Solved 150+ LeetCode problems

TECHNICAL SKILLS

Languages & Data: Python, SQL, MySQL, Pandas, NumPy

Machine Learning & AI: Scikit-learn, TensorFlow, PyTorch, Machine Learning, Deep Learning, Natural Language Processing, LLM Evaluation, AI Observability

LLM & Agentic Frameworks: LangChain, LangGraph, Vertex AI, Google ADK, AWS Bedrock, Retrieval-Augmented Generation (RAG), Model Context Protocol (MCP), Microsoft Foundry, Azure OpenAI

Engineering & DevOps: FastAPI, Docker, Git, CI/CD
